THIS AGREEMENT is made and entered into by and between the Department of Social and Health Services (DSHS), Division of Behavioral Health & Recovery, hereinafter referred to as “DBHR,” and the Office of Superintendent of Public Instruction, hereinafter referred to as “OSPI.”

PURPOSE OF THIS AGREEMENT

OSPI, through Special Education, exercises general supervisory authority over Local Education Agencies (LEAs), which are responsible for the provision of special education and related services to eligible special education students, aged 3—21, who meet eligibility criteria under the Washington State regulations, Chapter 392-172A WAC, implementing the requirements under the Individuals with Disabilities Education Act (IDEA).

DSHS, through DBHR, provides services to children who have behavioral health needs, including mental health and substance use disorders, and meet eligibility requirements established by the Department of Social and Health Services under RCW 71.34 and Title 388 of the Washington Administrative Code (WAC). DBHR contracts with regional Behavioral Health Organizations (BHOs), to administer community behavioral health programs to serve, within available resources, eligible persons. In Fully Integrated Managed Care (FIMC) Regional Service Areas, the Health Care Authority will contract with Apple Health plans for behavioral health services.

This Agreement is necessary for the successful implementation and operation of coordination of activities that promote cross-systems collaboration between local public behavioral health providers and LEAs to provide services and programs for students who are eligible for special education services under IDEA and who are eligible for services through DBHR.

THEREFORE, IT IS MUTUALLY AGREED THAT the terms used in this Agreement shall each have the following definitions:

Special Education: WAC 392-172A-01175 Special education means instruction that is specially designed to meet the unique needs of a special education student and is provided at no cost to the parent or student. Specially designed instruction (SDI) may include instruction conducted in the classroom, in the home, in hospitals, institutions, and in other settings as well as physical education, and vocational education. Special education also includes SDI when it is carried out...
as part of speech and language services, physical and occupational therapy, orientation and mobility instruction, behavioral intervention, and audiological services.

**Eligible Special Education Student:** An eligible special education student is a student with a disability who, through a formal evaluation, is determined to have a disability that adversely affects the student’s educational performance and is in need of SDI.

**Free Appropriate Public Education (FAPE):** FAPE is the special education and related services which are provided at public expense, under local school district or other public agency supervision and direction and without charge to parents, meet the standards of the state educational agency and the State Board of Education to, include preschool, elementary school or secondary school education in the state; and are provided in conformance with individualized education program requirements.

**Individualized Education Program (IEP):** The IEP is a written document (developed collaboratively by a team comprised of parents, school personnel, and relevant service representatives) that outlines special education programming (including Transition Services) for a student with a disability. The IEP is developed, reviewed annually, and revised by the IEP team.

**Related Services:** These are developmental, corrective, preventative, and other supportive services as are required to assist a special education student to benefit from special education. Related services include classified staff services, counseling services, early identification and evaluation of disabilities in students, medical services, parent counseling and training, psychological services, recreation, rehabilitation counseling services, school health services, social work services in schools, and transportation.

**DBHR:** This means the Division of Behavioral Health and Recovery of the Washington State Department of Social and Health Services (DSHS). DSHS has designated DBHR as the state mental health authority to administer the state and Medicaid-funded mental health program authorized by chapter 71.05, 71.24, and 71.34 RCW.

**DBHR Eligible Person/Consumer: WAC 388-865-0150** a person is considered a consumer who has applied for, is eligible for or who has received mental health services. For a child under the age of thirteen, or for a child age thirteen or older whose parents or legal guardians are involved in the treatment plan, the definition of consumer includes parents or legal guardians.

**Behavioral Health Organization (BHO):** Any county authority or group of county authorities or other entity recognized by the Secretary that provides or contracts for mental health services and substance use disorder treatment services within a defined Regional Service Area, using available resources, (with the exception of the Fully Integrated Managed Care region where Managed Care Organizations provide these services). The BHO must ensure services are responsive in an age and culturally competent manner to the behavioral health needs of its community.

**STATEMENT OF WORK**

OSPI allocates funding to LEAs who provide special education and related services to students eligible for special education and related services.
DBHR, through the BHOs, coordinates appropriate mental health and substance use disorder (behavioral health) treatment services including counseling services, hospitalization, residential treatment, case management, community-based services, and other appropriate behavioral health services. These provisions are not intended to shift the responsibility of services delivery or financial responsibility from one agency to another but rather to create and sustain an environment where the needs of eligible students and their families are met during the time that a student is enrolled in public school.

DBHR and OSPI enter into this Agreement to promote cooperation, coordination, and maximum use of resources at the local level to improve service delivery to children who are eligible for public mental health and special education services.

EXPECTED OUTCOME

A. As a result of this Program Agreement the following outcome is expected:

Eligible special education students who meet the Access to Care Standards and are eligible for services under Title XIX (19) will be eligible to receive services in the public mental health system.

B. To achieve the outcome OSPI and DBHR agree to:

- Work towards developing a system to collect and disseminate information on exemplary practices and Evidence and Research Based Practices (E/RBPs illustrating collaboration between education and public behavioral health in local communities).
- Explore methods to enhance the outcomes for students eligible for special education and public behavioral health services.
- Disseminate information and available training opportunities on state and local roles and responsibilities, federal and state regulations, and exemplary practices.
- Disseminate information cross agency to be included on websites and/ or newsletters.
- Encourage BHO and school district participation to support Youth in Transition
- Work with BHOs, local public behavioral health providers, and LEAs to identify local contact persons to facilitate communication at the local level.
- Publicize state and local training opportunities focusing on emotional and behavior issues and best practices in service delivery.

- This is a non-financial Agreement. In no event shall either party seek compensation for work performed under this Agreement.

DBHR certifies that neither it nor its principals are debarred, suspended, proposed for debarment, or voluntarily excluded from participation in transactions by any federal department or agency. DBHR further certifies that they will ensure that potential subcontractors or subrecipients or any of their principals are not debarred, suspended, proposed for debarment, or voluntarily excluded from participation in covered transactions by any federal department or agency.
